Of procurement workload is due to poor asset management and MRO. (2005)

Get a handle on this in your company.

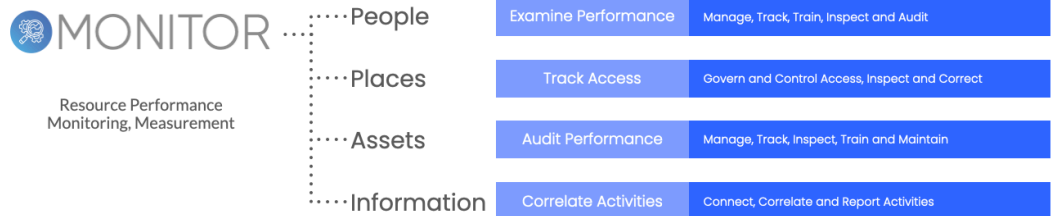

MANAGE:

- PEOPLE
- PLACES
- ASSETS
- INFORMATION

How do you know if your resources are performing and complying as required? How do you quickly know about and respond to incidents as they occur? With Damstra.

MEASURING PEOPLE, PLACES, ASSETS AND INFORMATION

Unattended resources can tend to wander, not contributing as they should. Slow identification and response to incidents is expensive. And, not tracking people and assets leads to increased cost to the business. Avoid these with Damstra's MONITOR Solutions.

WHAT'S IN THE BOX?

Designed around your requirements, scalable to meet today and tomorrow's needs, each module delivers what you need to ensure that your most valuable assets are monitored and managed to deliver the greatest performance and value contribution at the lowest possible cost.

PEOPLE	Management, Tracking and Tracing, Event Detection Behavior Monitoring, Skill and Certification Assessment and Management, Ongoing Learning and Configurable Digital Forms
PLACES	Compliance Inspection and Analysis, Health and Safety Management, Incident and Violation Reporting, Corrective Action Planning and Measurement, Ongoing Learning and Configurable Digital Forms
ASSETS	License Assessment and Management, Mobilize/Demobilize Processes and Management, Tracking and Tracing, MRO Scheduling and Cost Tracking and Configurable Digital Forms
INFORMATION	People, Places and Things Dashboards, Alerts and Notifications, Basic Enterprise HSE Management and Configurable Digital Forms

POWERFUL, SCALABLE AND BUDGET FRIENDLY

Damstra's MONITOR Solutions are in the cloud so you don't need any additional IT infrastructure and management cost and hassle. Every feature and function is automatically kept up to date for the best performance and security. And, as you grow or change, Damstra quickly adds or changes functionality to suit your needs and puts it in production immediately to keep your people, places, assets and information performing the way you want them to.

Oh, and all this is available for a predictable and budget friendly cost.
