Digital Forms
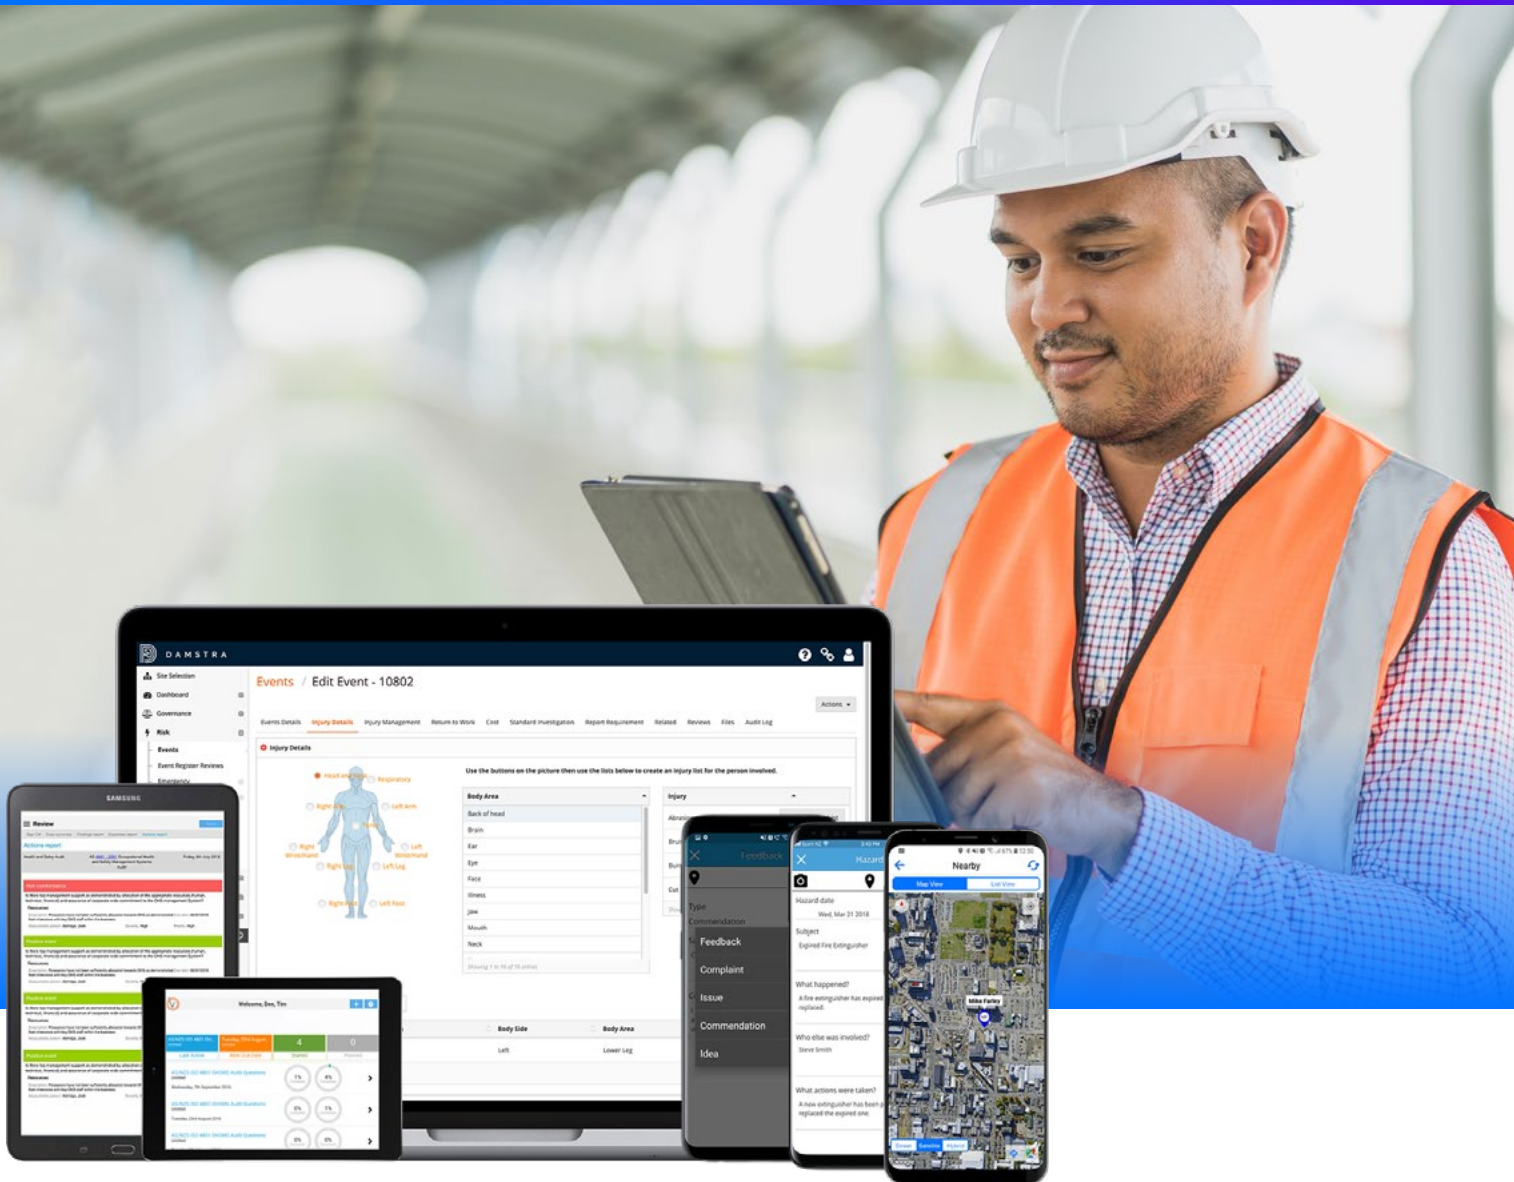

A complete forms management system to manage workplace safety and help protect your employees and the organization.
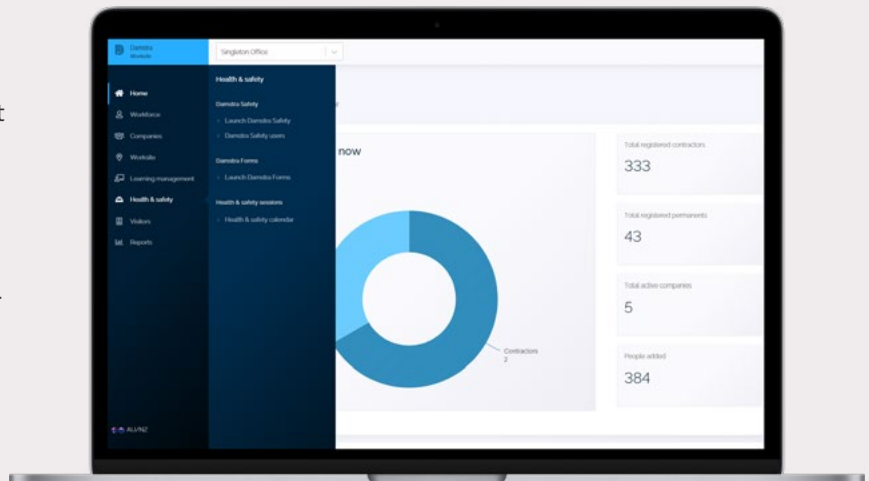

Integrated across the Enterprise Protection Platform (EPP), the Digital Forms solution automates safety policy and procedure checklists and forms, saving valuable time and reducing risk.

Connect + Protect Your World

Forms and checklists are a key part of managing workplace safety. They are used to manage compliance, educate employees, assess risk, prevent accidents, document safety audits, and more.

Damstra's Digital Forms lets you build and automate checklists and forms to manage workplace safety with an easy-to-use form editor and customizable templates. Error-checking logic can be added to make the forms smarter.

Prepopulate the forms with real-time data from the EPP or your other integrated systems and add digital signatures for immediate approvals.

PREPARED PEOPLE

SAFE WORKPLACES

CONNECTED ASSETS

ACCESSIBLE INFORMATION

Manage Safety Policies and Procedures All in One Place

✔ Address all site compliance requirements, including audits and incident management, SWMS and RAMS, and pre-starts and toolbox talks

✔ Automate workflows to save time, reduce errors and rework, and standardize procedures

✔ Capture and track your organization's data in real time, keeping everyone in the field and in the office up-to-date

✔ Attend to safety responsibilities anytime from anywhere with the mobile app

Paperless Safety Audits and Inspections

Audits are tedious and time consuming. They don't have to be when you have the right tools to automate the process and use it wherever you go. Digital Forms lets you:

- ✓ Create custom checklists to standardize inspections for specific needs
- ✓ Build custom workflows to manage any identified issues
- ✓ Conduct paperless safety audits from anywhere at anytime
- ✓ Produce powerful analytics and reporting to monitor and manage results

Digital Incident and Hazard Management

In addition to the regulatory obligation to document any accidents that happen, it's critical that accidents are documented to meet compliance reporting requirements. Digital Forms lets you:

- ✓ Report actual incidents and near misses as they happen
- ✓ Conduct and document investigations
- ✓ Determine their financial impact
- ✓ Monitor each incident until the case is closed

SWMS and RAMS Management

The Safe Work Method Statements, or SWMS, module lists each step of a task and outlines the potential risks and the procedures that should be followed to prevent accidents. Digital Forms lets you:

- ✓ Define control measures for identified risks
- ✓ Document corrective actions

Tracking Risk Assessment Management, or RAMS, requires identifying risks and hazards, prioritizing them and managing them across the workplace. Digital Forms lets you:

- ✓ Create checklists to identify and track risks across the workplace, including site assessments, workplace environment, equipment, and vehicles

Pre-Starts and Toolbox Talks

Safety begins with education. Start new workers and projects with safety in mind by creating interactive safety sessions to help focus on job safety policies and procedures. Digital Forms helps you:

- ✓ Reinforce your key messages
- ✓ Ensure that everyone is trained and prepared
- ✓ Track worker participation
- ✓ Manage supporting documents
