**REPUTATION**

Keeping your workplace safe and people healthy is an ongoing concern,

especially as people are returning to work amidst an ongoing global pandemic. How do you know you're doing everything possible to ensure your workers' health and safety in the workplace?

Protecting Your World to Reopen Safely

Damstra Technology's Enterprise Protection Platform (EPP) is a cloud-based SaaS platform that enables and automates business processes and data flows related to your security, training, and health and safety requirements — especially around COVID-19. It gives you visibility across all your human and physical assets, systems, processes, and locations to ensure you have a sound, actionable strategy for a safe return to work.

PEOPLE to keep themselves and their co-workers healthy and unexposed to COVID

WORKPLACES to keep them safe and free from COVID-19

ASSETS to connect your tools, equipment, technologies, and more

INFORMATION that you can readily access to stay safe, healthy, and compliant

REPUTATION to maintain business continuity and avoid COVID-related closures

Workforce Management

Tracks the numerous workers on a site —whether contract or full-time – to ensure that all are healthy and compliant with COVID protocols.

- ✓ Automates daily temperature readings for all employees entering the workplace
- ✓ Flags workers with elevated temperatures, who are not allowed in
- ✓ Records temperature incidents in employees' profiles for follow up
- ✓ Enables contact tracing as the system tracks who worked together in what areas
- ✓ Allows spot checks during the day on local terminals and texts SMS alerts so right people are informed
- ✓ Proves your compliance by capturing and reporting worker data

eLearning

Offers online training that workers can access from anywhere, at any time, on a variety of health and safety subjects.

- ✓ Provides online training videos to educate workers on proper workplace COVID protocol and procedures

Digital Forms

Automate form creation and population and support COVID compliance audits and other return-to-work initiatives.

- ✓ Instantly upload vaccination certification and add it to an online form that's attached to an employee's profile
- ✓ Reinforces training on a weekly/daily basis, protects you from liability, and reduces financial risk

Vaccine Management

Ensures the health and well-being of your workers with our complete COVID-19 vaccine management solution that is instantly deployable and scalable.

- ✓ Automates processes to keep those who are vaccinated working
- ✓ Implements quickly for compliance requirements
- ✓ Captures and uploads the documented evidence of vaccination status of all workers
- ✓ Provides rapid validation of vaccinations, appointments, and exemptions for site access to be granted
- ✓ Inputs the information into your existing rostering system to manage worker vaccination status with confidence
- ✓ Sets alerts and notifications for reminders of second doses and boosters for pro-active management
- ✓ Tracks and reports on the progress of vaccination for your entire workplace

Solo

Provides wearables for lone worker safety, biometrics, contact tracing, safety alerts, and continuous connectivity

- ✓ Identifies people and areas that have been exposed to COVID
- ✓ Informs individuals who are in affected zones via two-way messaging
- ✓ Alerts zones where COVID is detected to vacate workers, place a cap on people in the area to socially distance, or close down to get it disinfected and cleaned
