

Solo Satellite

Continuous Connectivity

DAMSTRA

CONNECT + PROTECT YOUR WORLD

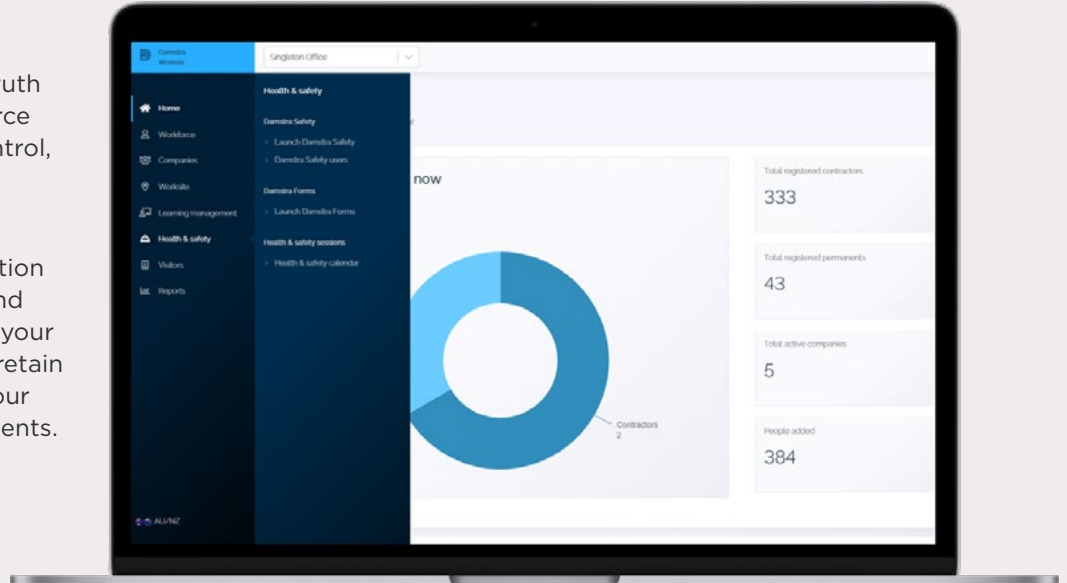

Workers are connected, protected, and never alone

Solo Satellite extends the use of Solo Mobile and Solo Watch to allow continuous connectivity for workers in the most remote areas. Both workers and their passengers are protected and connected whilst in, or in proximity to their vehicle.

Connect + Protect Your World

Harness the power of the EPP with one source of truth from data across Workforce Management, Access Control, Learning, Assets, and the Connected Worker.

Enable process orchestration across all your systems and technologies to optimise your results, while letting you retain and optimally leverage your existing software investments.

ACCESSIBLE INFORMATION

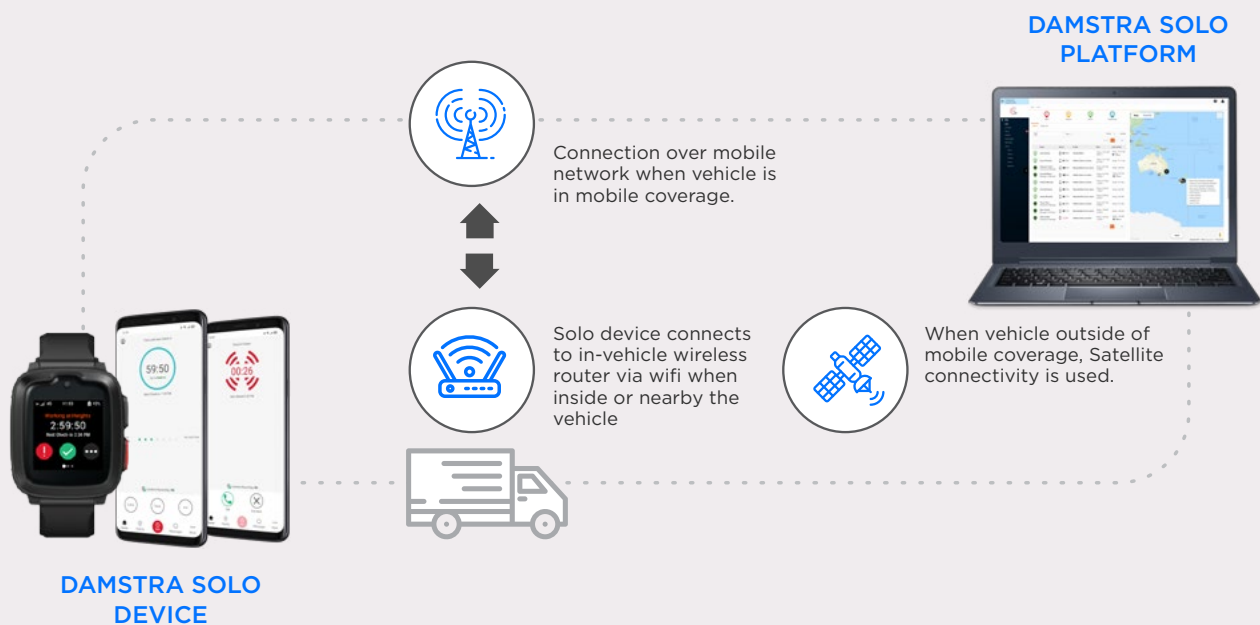

Damstra Enterprise Protection Platform (EPP) Showcasing Solo Satellite

- ✓ Solves mobile blackspot issues for people who are mostly in, or near their vehicles
- ✓ Connects to in-vehicle mobile router
- ✓ Peace of mind for workers in the most remote areas

How Solo Satellite Works

Solo Satellite is ideal for organisations who have remote or sole workers who travel to, and through remote and country areas where there is no standard connectivity such as delivery fleets, interstate drivers, remote maintenance workers, remote healthcare workers, and livestock loading and transportation.

- ✓ Start, end, pause, and resume a session
- ✓ Raise or cancel an alert
- ✓ Location data with GPS or nearby beacons
- ✓ SoloDrive - Driving behaviour and data is captured

Damstra Solo

Solo Platform

- ✓ Send and receive notifications and alerts from workers
- ✓ Simple, easy-to-use check-ins
- ✓ User configurable to easily manage check-in timings
- ✓ Smart customisable escalation and notification options
- ✓ Individual and team messaging
- ✓ Stay connected with workers in mobile blackspots with satellite (SBD)

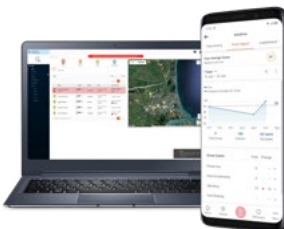

Solo Mobile

- ✓ Configurable profiles
- ✓ Send and receive important notifications
- ✓ Easily view nearby workers and teams
- ✓ Fingertip alerts
- ✓ Biometrics
- ✓ Panic & duress alert
- ✓ Integrated GPS mapping

Solo Wearables

- ✓ Solo available on the Apple Watch, the Samsung Galaxy Watch, & the Damstra Solo Watch
- ✓ Powerful, integrated and user friendly
- ✓ Map onsite location with GPS
- ✓ Easily view nearby workers and teams
- ✓ Biometrics, fall detection & panic alert

Solo Drive

- ✓ Low cost and instant deployment: No need for additional hardware or software to be procured or installed.
- ✓ SoloDrive harnesses the sensors in the smartphone your drivers already use.
- ✓ Damstra Solo is the only lone worker solution in the market with Smartphone-based vehicle collision detection & driver behaviour monitoring capability.
- ✓ No configuration required: Once enabled at the account level, all Solo workers using the mobile app will have SoloDrive.
