

eLearning

DAMSTRA
CONNECT + PROTECT YOUR WORLD

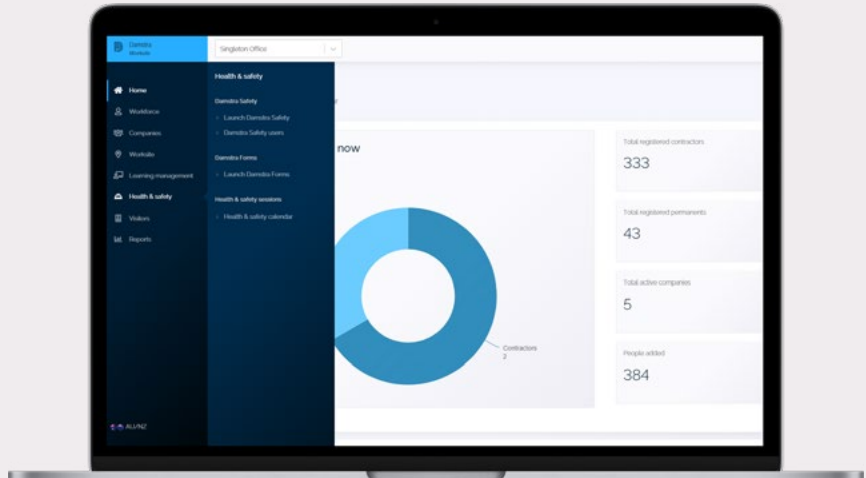

Transform learning with faster content creation, better outcomes, and easy virtual access.

Boost worker and team performance with Damstra's eLearning platform. Create compelling content, deliver anytime, anywhere and measure worker progress with targeted skills and competencies.

Connect + Protect Your World

eLearning digitizes inductions, training, and administration by systematically attaching documents and certifications to each worker record, including renewals. It enables deeper learning with intentional peer interactions and knowledge sharing. Workers can learn in the flow of their work or have the option to receive training at home. Companies can automate and enhance the worker experience with fully integrated eLearning. Having trained workers also protects your business with high-performance individuals and teams.

PREPARED PEOPLE

SAFE WORKPLACES

CONNECTED ASSETS

ACCESSIBLE INFORMATION

Simplify training administration, solidify a culture of prepared people, and promote individual employee development

- ✓ Create dynamic multimedia content with ease
